

Product: 1220 Tacky Oven Foil is used in paintshop ovens and heated flash zones to capture airborne contaminants and reduce paint defects. This product is fire retardant and antistatic, so that it can be safely used on floors, walls, and decking over a broad temperature range. It provides a cost effective solution to maintaining paint quality in a difficult-to-maintain area of the paint shop.

Benefits: Captures dirt seeds to reduce paint defects.
Use on walls, floors and conveyor areas.
Fire retardant and antistatic.
Effective for weeks at >160C.
Environmentally friendly. No VOC and no solvents.
Solid non-hazardous waste disposal.

Usage: Mount on walls, floors and decking with clips, magnets or foil tape
Peel away protective release film to expose the tacky coating.
After 2 to 4 weeks, remove and replace with fresh foil.

Size: 0.78 x 3.0m per panel ; 5 panels/carton.
